Sets of Art

- Create your own cocktail-bar and feed your friends with help of “Sweet Cocktals” set. All accessories for young barkeeper included - cramps, glasses and cups. The cocktails themselves can be made from a special mass for sculpting, and decorating the finished dishes will help a lot of additional details - tubes, fruits and glitter fillers. The mass for sculpting different colors is easily blended, very soft and taking any shape
- To prepare the famous treat - donuts and other sweets will help the baby set "Mr. Dough - Mini Sweets." You can sphantasize any kind of tasty treat and put it out of a special dough. The dough is very plastic, different colors are easily mixed, it does not get dirty hands and can take any shape. It has bright colors and is absolutely safe. Ready-made flavors can be put in a special beautiful box.

Sets of Art

- Big construction begins! Tractor-loader is ready to take building materials to new buildings. Kinetic sand consisting of natural sand, bound into one mass by a polymer, allows you to make any game fantasy or house. During the game, the child will wash, shape, compress and stretch the sand mass, developing motor skills and motor skills in addition to fantasy. The box in which the set is packed is a 3D playing field with roads, a river, parks and places for the construction of buildings. <https://www.strateg.ua/>
- The set "Children's Workshop for Girls 5 in 1" will help combine entertainment with creativity, develop the girl's fantasy and artistic abilities. It is suitable for a small artist, a novice sculptor, an amateur to make original gifts and creative jewelry with her own hands. The main condition is that the fantasy of a small craftsman is necessary, and everything else is in the set - coloring, engraving, a voluminous figure, a painting of plasticine, a 3D puzzle, beads.

«Mister Dough»

- Plastic dough is a useful acquisition for the baby, it develops the imagination and small motor skills of the kid. The set includes 22 sticks of multicolored dough with sparkles. And it also has instructions, plastic moulds and a safe stack for creating figures. Each element smells like delicious fruit, you can easily mix and embody bold fantasies!
- Creativity is a very important skill important for harmonious development of an individual. "Mr. Dough" is a wonderful set that is designed for children over three years old. The set consists of twelve of the most popular dough colors, and also supplemented with auxiliary elements that will help the baby to create.

Table Games

- Quest-game for a company of 2-6 people is interesting not only for children, but also adults, will give the opportunity to spend time fascinating with family, while developing attentiveness, tactical thinking and having much fun. A large and colorful playing field represents the premises of a castle with decoration, surrounded by a river. Game including cards with images of characters, opponents, weapons and things, special life chips and a roulette of fate.
- A fascinating game that requires attentiveness and speed of reactions - a lotto with wooden chips will give the company up to 12 people an opportunity to have fun, the age of the players is not important. The rules of the game can be changed as desired - each player can take either two or one card, you can fill out the entire card or only one line - it all depends on the wishes of the players. Complete with 24 playing fields with numbers, 90 wooden chips, 60 cardboard chips, instructions

Table Games

- Think through strategy, tactical moves, prepare an offensive and defeat the enemy! You can play in the company from 2 to 6 people, on a large playing field measuring 75 x 75 cm, made in the form of a puzzle on which the armies are located and battles are held. Players can join teams. Each of the player can choose one of six species of insects - grasshoppers, beetles, bees, etc. Each species has unique combat skills and abilities - speed, strength, range.
- Split into teams. Cards with words of different difficulty level are available for you. Players take turns pulling cards. And they explain the words meaning. Gestures, facial expressions, antonyms, synonyms are your tools. You have 1 a minute! Beside complexity levels, you have bonus cards which brings to the player more points and gives you 2 minutes. But! You will have to explain only in the way that is indicated in the map.
